

IN THE CLAIMS

Amend claims 1-18 and add new claim 19 as follows.

---

B 1. (Amended) A mirror with a non-reflective portion provided within its reflective surface as an information provider, wherein at least a portion of the mirror surface is transparent for seeing therethrough and is backed by a display, whereby the display is provided with an interchangeable item of information.

2. (Amended) A mirror as set forth in claim 1 or claim 19 wherein the display is provided with a moving image.

3. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the display is provided with a colored image representation.

4. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the display is a flat screen.

5. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the display employs one of TFT and plasmas technologies.

6. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the display includes hologram.

7. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein behind the mirror surface, at least one loudspeaker is connected to the display.

B<sub>1</sub>  
ConY.

8. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein behind the mirror surface, at least one loudspeaker is connected to an input device.

9. (Twice amended) A mirror as set forth in claim 1 wherein the display is connected to an input device.

10. (Amended) A mirror as set forth in claim 9 or claim 19 wherein the input device is an external input device.

11. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the mirror surface is part of a mirror insert which is associated with a frame which forms a mirror interior.

12. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the mirror surface is part of a mirror attachment which is fitted onto a frame to form a mirror interior.

13. (Twice amended) A mirror as set forth in claim 11 wherein the frame delimits the mirror interior and is connected to the mirror surface.

14. (Twice amended) A mirror as set forth in claim 13 wherein the frame is composed of channel profile members having a width (b) which determines the depth of the mirror interior.

15. (Twice amended) A mirror as set forth in claim 1 or claim 19 wherein the display is secured to a frame by strut means.

*B<sub>1</sub>*  
*Concl.*  
16. (Twice amended) A mirror as set forth in claim 7 wherein the loudspeaker is associated with a perforated region of a frame.

17. (Twice amended) A mirror as set forth in claim 1 or claim 19 including a radio receiver module for the image data.

18. (Twice amended) A mirror as set forth in claim 1 or claim 19 including an integrated remote operating means for volume control.

---

*B<sub>2</sub>*  
19. (New) A mirror with a non-reflective portion provided within its reflective surface as an information provider, wherein at least a finite-sized, two dimensional portion of the mirror surface is transparent for seeing therethrough and is backed by a display, whereby the display is connected to an input device.
